Short Term Public Notice Under Rule 51.333(a)
CenturyLink's Internet address: <http://www.centurylink.com/disclosures/>

E9-1-1 Served by CenturyLink's PlantCML Sentinel ECS-1000 Routers/ANI-ALI Controllers in the State of Kansas.

First Implementation Date: *September 29, 2017*

Original Date Posted:

February 24, 2018

Summary:

CenturyLink announces the planned decommissioning of Hiawatha ECS1000 9-1-1 Selective Router. All 9-1-1 trunks will be transferred to an existing DMS-100 switch that shall provide the Selective Router functions. The Telcordia® LERG™ has been updated accordingly. In addition, the 9-1-1 voice trunk network currently provided by CenturyLink's ECS-1000 serving five Kansas PSAPs will be rehomed to the Junction City DMS100 CenturyLink Selective Router. Carriers will need to provision new end office 9-1-1 trunks (ES trunks) for the impacted counties/PSAPs to the DMS100 CenturyLink Selective Router, replacing existing trunks to CenturyLink's ECS-1000 Selective Router. After the migration, the Hiawatha ECS1000 Selective Router will be decommissioned and the 9-1-1 Selective Routing services in Kansas will be handled by the pertinent DMS-100 CenturyLink Selective Router. The impacted Counties and PSAPs include:

- Brown County
- Doniphan County
- Jackson County
- Jefferson County
- Pottawatomie County (Moving to A T & T in the spring of 2018 before Wabaunsee County)

9-1-1 Selective Router Name	Hiawatha
9-1-1 Selective Router CLLI	HWTHKSXA91W
9-1-1 Selective Router Type	ECS1000
Current Point Code	None
New 9-1-1 Selective Router CLLI	JNCYKSXA0ED
New 9-1-1 Selective Router Type	DMS100
New Point Code	239 012 007
Implementation Date	September 29, 2017

Interface Requirements: Technical publications for the 9-1-1 Selective Router may be obtained from:
