

## How to Configure Entourage for live.com E-mail

**Email Type:**  
**@live.com**

**Use this document if:**

- You need to configure Entourage for live.com e-mail.

**This document assumes:**

- You know your live.com e-mail address and password.
- Your live.com e-mail address is associated to a Qwest DSL® account.
- You have a working copy of Entourage.
- You have a working Internet connection.

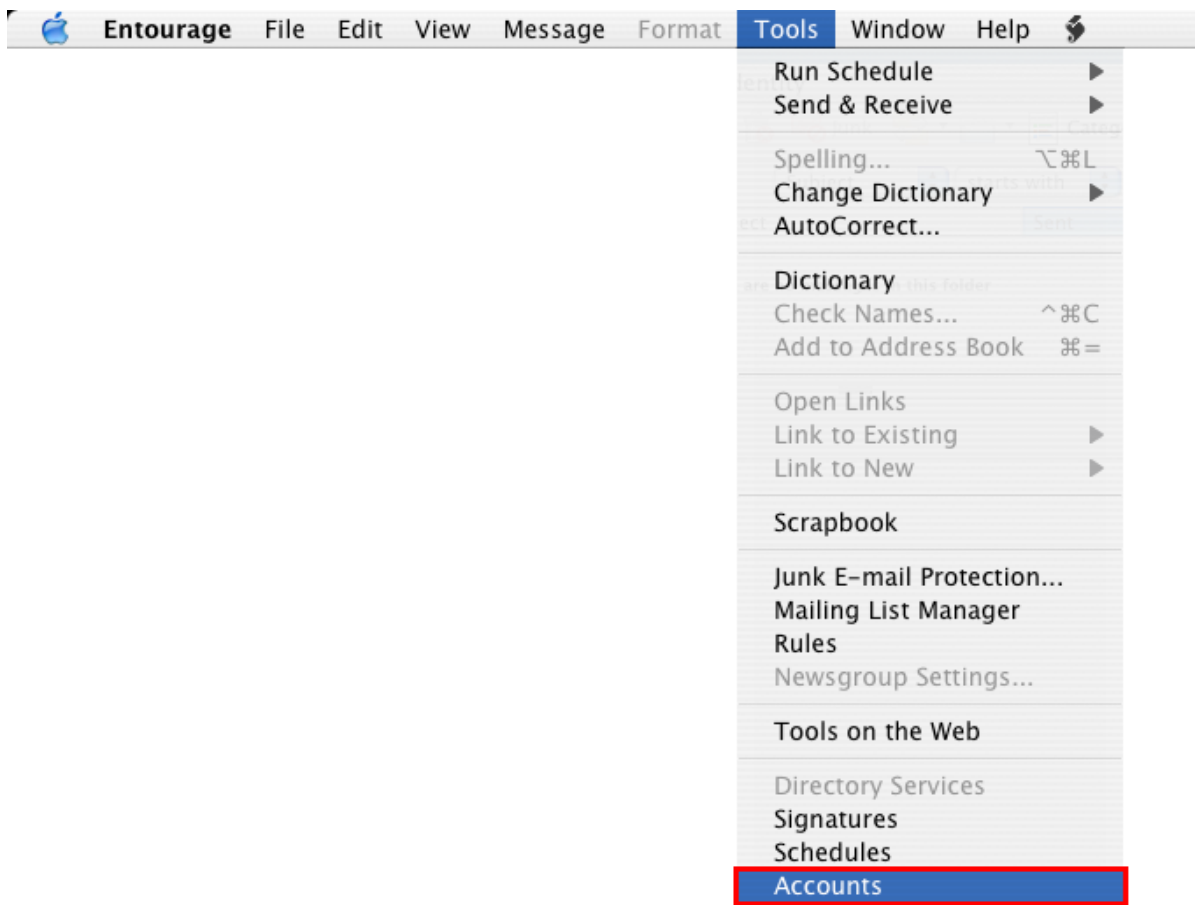

**Incoming/Outgoing server info:** If you are familiar with how to configure Entourage, use the following information. If you need more help, continue reading.

- Incoming Server: pop3.live.com (SSL enabled)
- Outgoing Server: smtp.live.com (SSL enabled, requires authentication)

1. Open Entourage using the icon on your dock or by selecting the icon in your Applications folder.

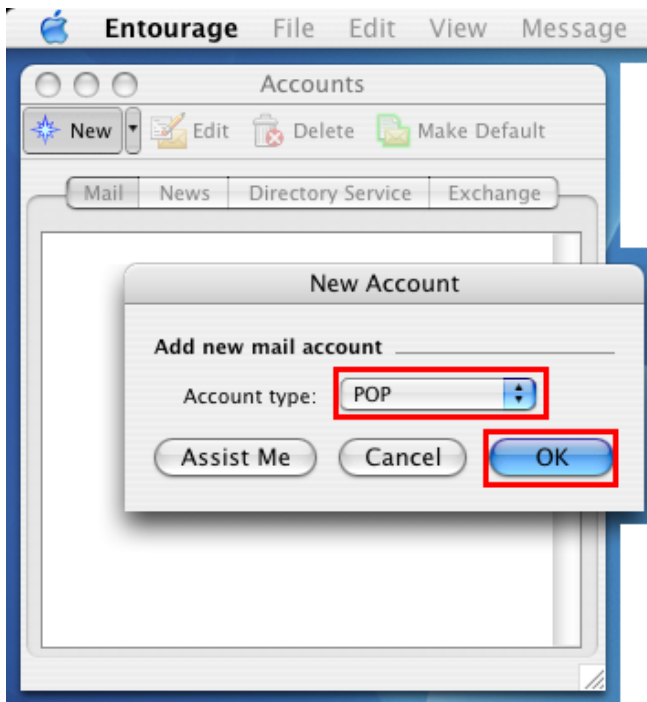

2. Select **Tools** then **Accounts** from the toolbar at the top.

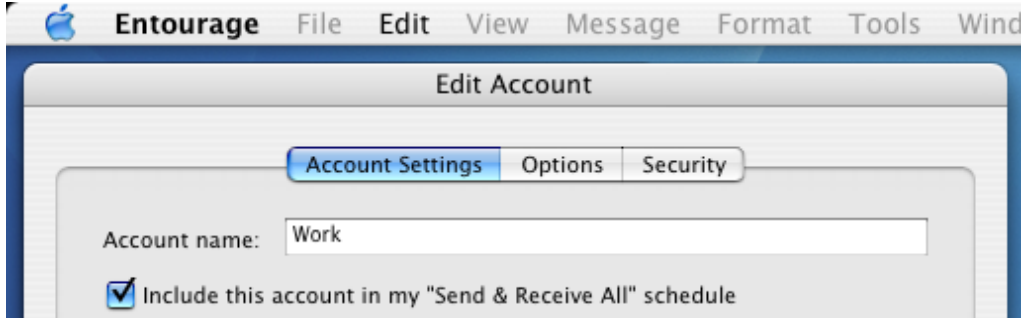

3. Select the **Mail** tab. Then, select the **New** button.

4. In the 'Account type' field, select **POP**. Then, select **OK**.

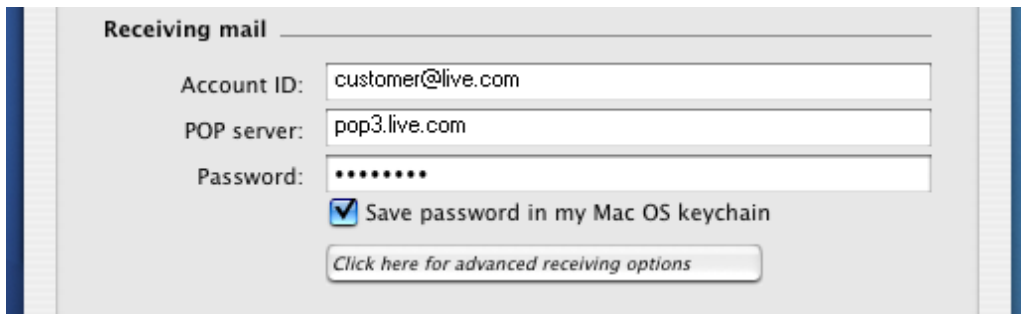

5. Enter a name you would like to identify this account. This can be helpful when using multiple email accounts within Entourage.

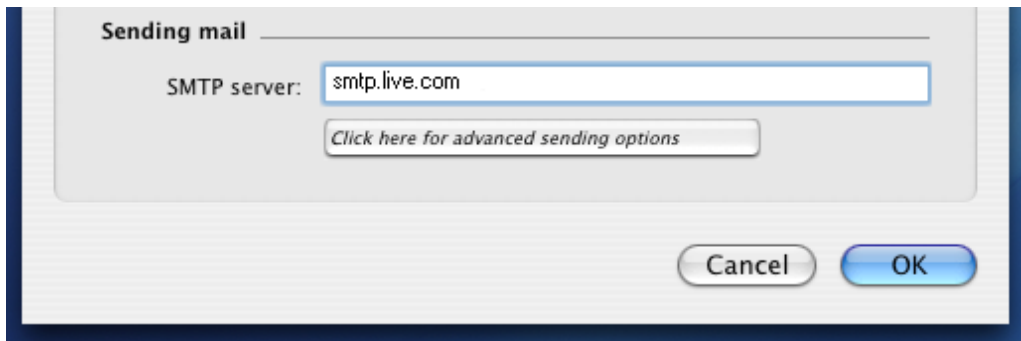

6. Enter your name as you would like it to appear in your outgoing mail. Then, enter your full @live.com email address.

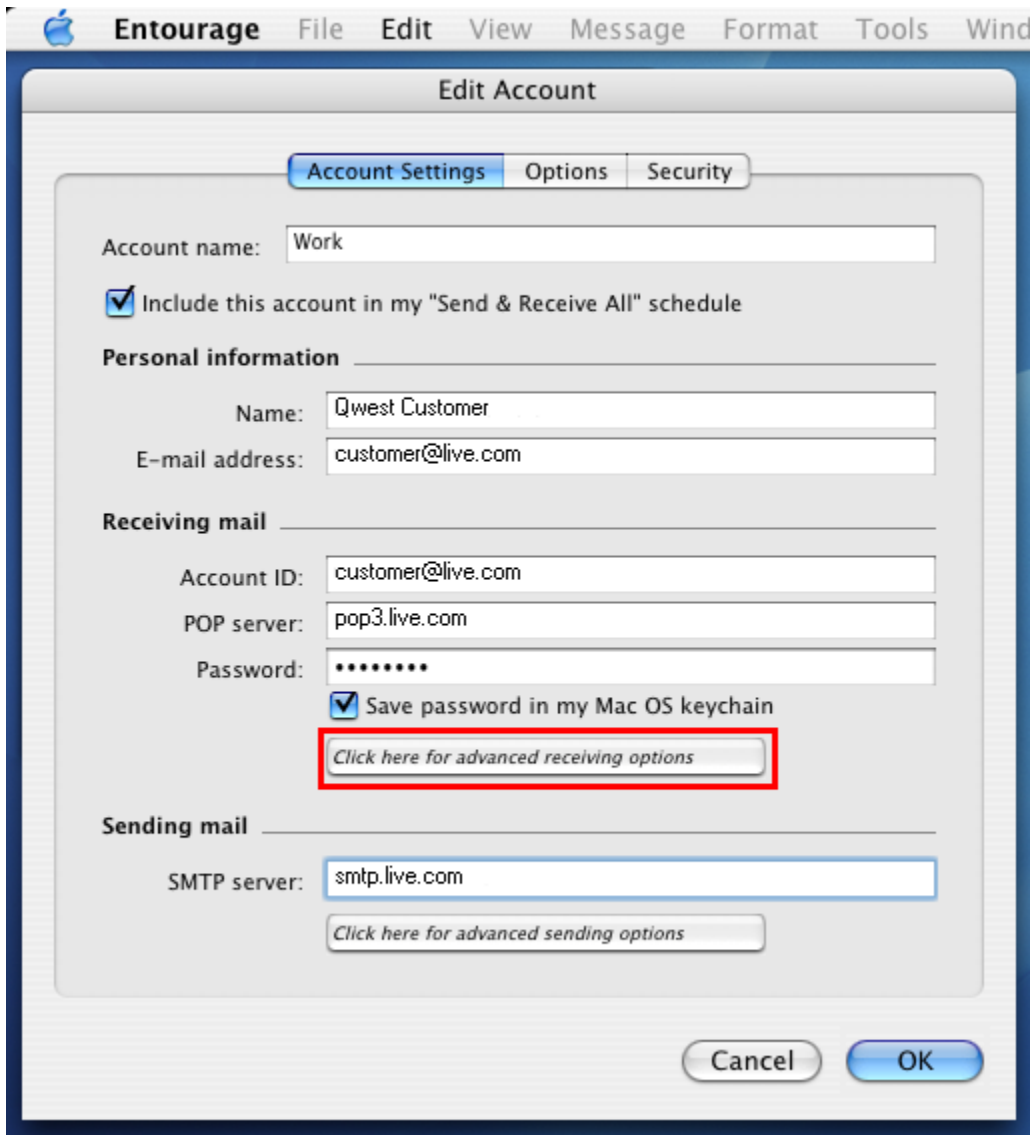

7. In the 'Account ID' field, enter your full @live.com email address. Next, type in **pop3.live.com** in the 'POP server' field. Then, enter your live.com account password.

8. In the 'SMTP server' field, enter **smtp.live.com**.

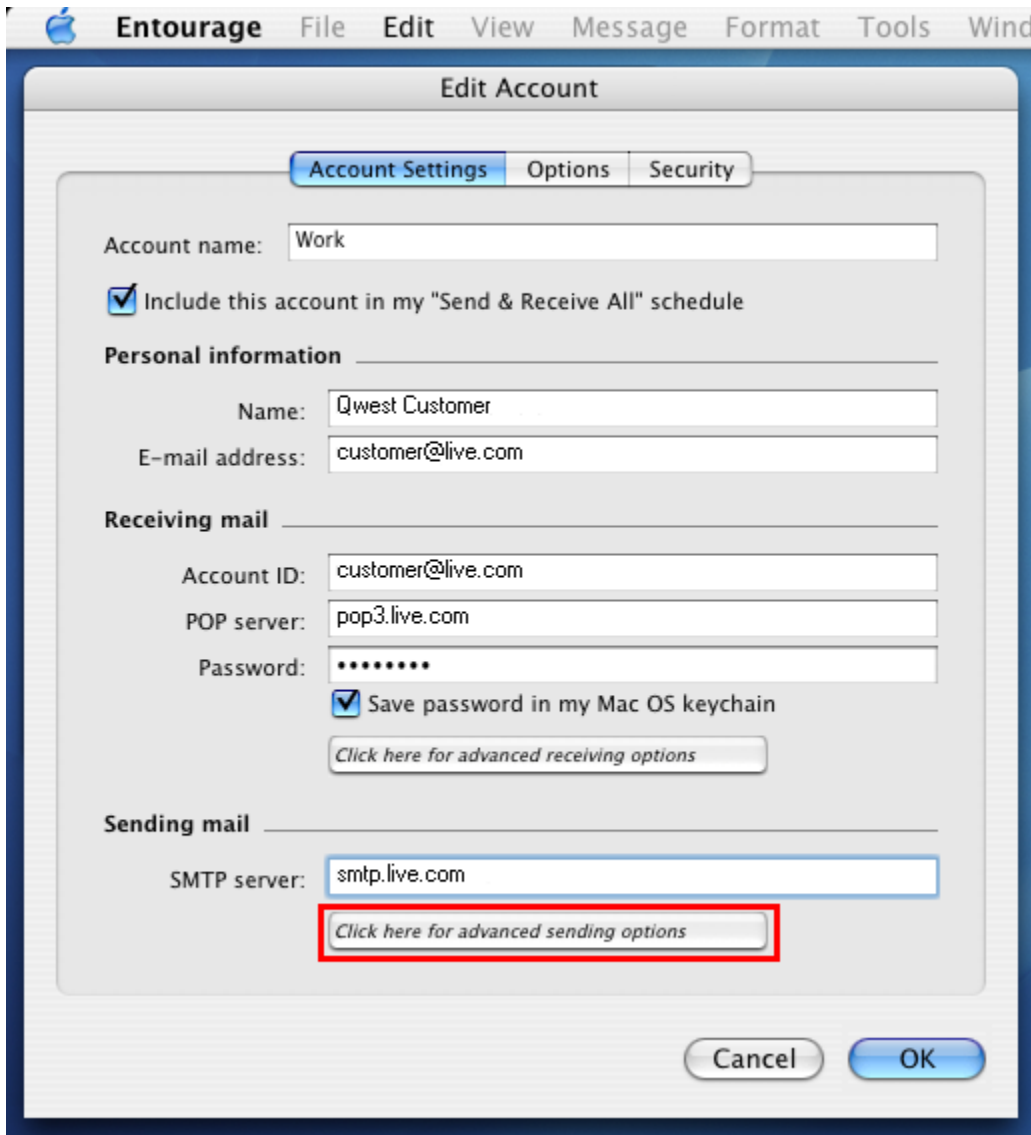

9. Select **Click here for advanced receiving options**.

10. Check the box next to **This POP service requires a secure connection (SSL)**. Then, close the mini-window by selecting the dash in the top left corner.

11. Select **Click here for advanced sending options**.

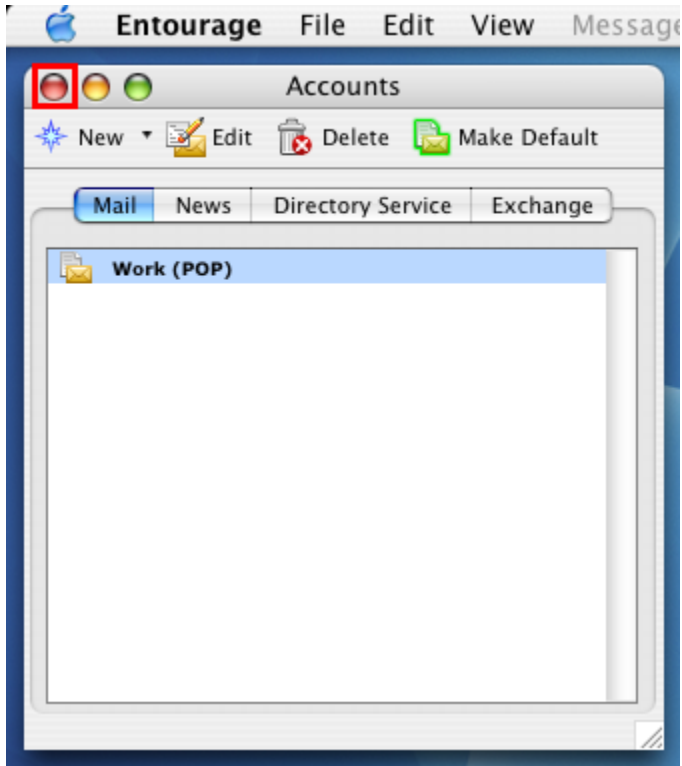

12. Check the boxes next to **SMTP service requires secure connection (SSL)** and **SMTP server requires authentication**. Then, close the mini-window by selecting the dash in the top left corner.

SMTP service requires secure connection (SSL)  
 Override default SMTP port: 25  
 SMTP server requires authentication  
 Use same settings as receiving mail server  
 Log on using  
Account ID:   
Password:   
 Save password in my Mac OS keychain  
Domain for unqualified addresses:

13. Select the **Options** tab. Put a checkmark next to **Leave a copy of each message on the server**. Click **OK**.

Account Settings Options  
Message options  
Server options  
 Partially receive messages over 20  
 Leave a copy of each message on the server  
 Delete messages from the server after  
 Delete messages from the server after this computer  
Cancel OK

14. Select the red gum drop to close the window.

Congratulations, you have configured Entourage for your @live.com e-mail.
