

How to Configure Eudora for qwest.net E-mail

Email Type:
@qwest.net

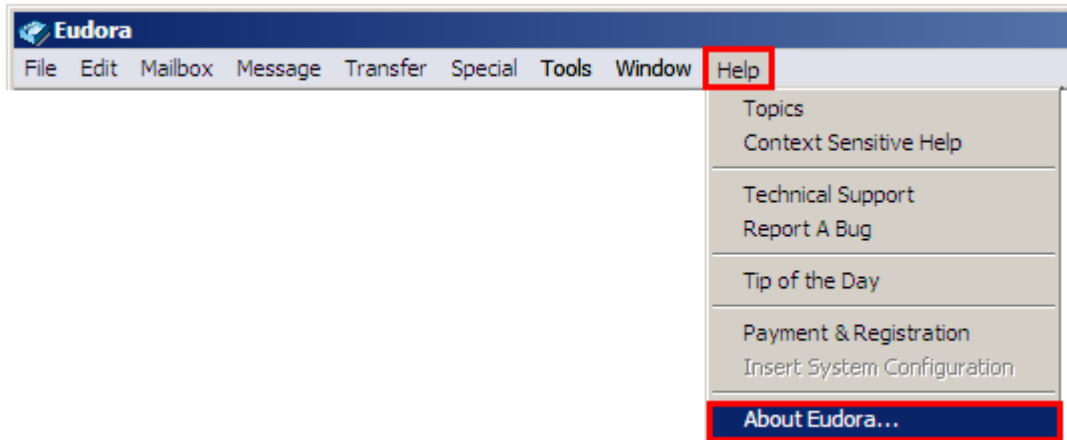

Use this document if:

- You need to configure Eudora 7 for qwest.net e-mail.

This document assumes:

- You know your qwest.net e-mail address and password.
- You have a working copy of Eudora 7.
- You have a working Internet connection.

This document only applies to Eudora 7.1. To find out what version you are using, select **Help** then **About Eudora**.

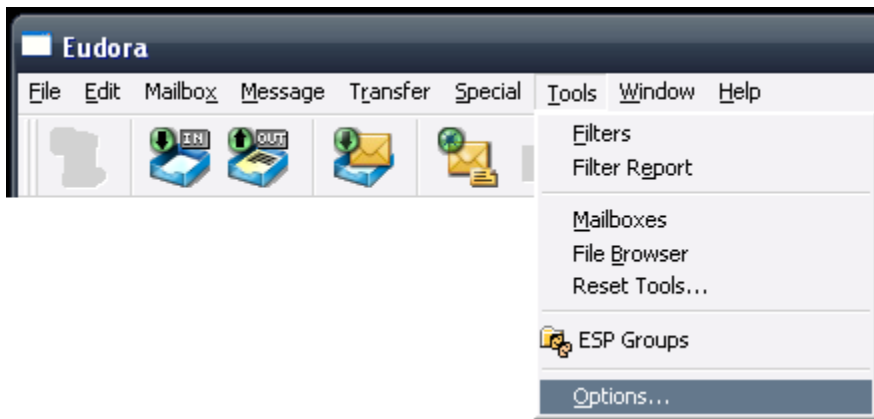

This will bring up the 'About' screen. Select the **Close** button after finding the Eudora Version. If the 'About' screen looks like the one below, continue reading.

1. Open Eudora using the icon on your desktop or Start menu.

2. Select **Tools**, then **Options**.

3. Select **Getting Started** on the left. Then, enter your **Real name**. This is the name that people see when you send them an email.

4. Enter your **Email address**.

Email address:

5. Enter your **Mail Server (Incoming)** and **SMTP Server (Outgoing)**. Refer to the list at the end of this document.

Mail Server (Incoming):

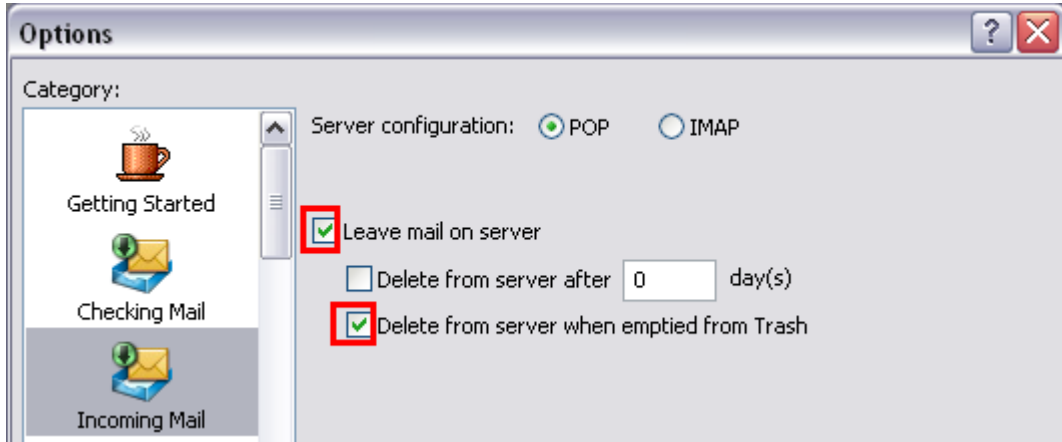

SMTP Server (Outgoing):

 Allow authentication

6. Enter your **User Name**. This is the same as your email address.

User Name:

7. Select **Incoming Mail**. Place a checkmark next to:
 - a. **Leave mail on server** and
 - b. **Delete from server when emptied from Trash.**

8. Select OK.

9. Select the Check Mail icon.

10. In the Password field, type your password (passwords are CaSe sEnSiTiVe) and select **OK**. If you want Eudora to remember your password in the future, check the **Remember password for this personality** box.

11. Congratulations, you have configured Eudora 7 for your qwest.net e-mail.
