

Windows® XP – Dial-Up Support

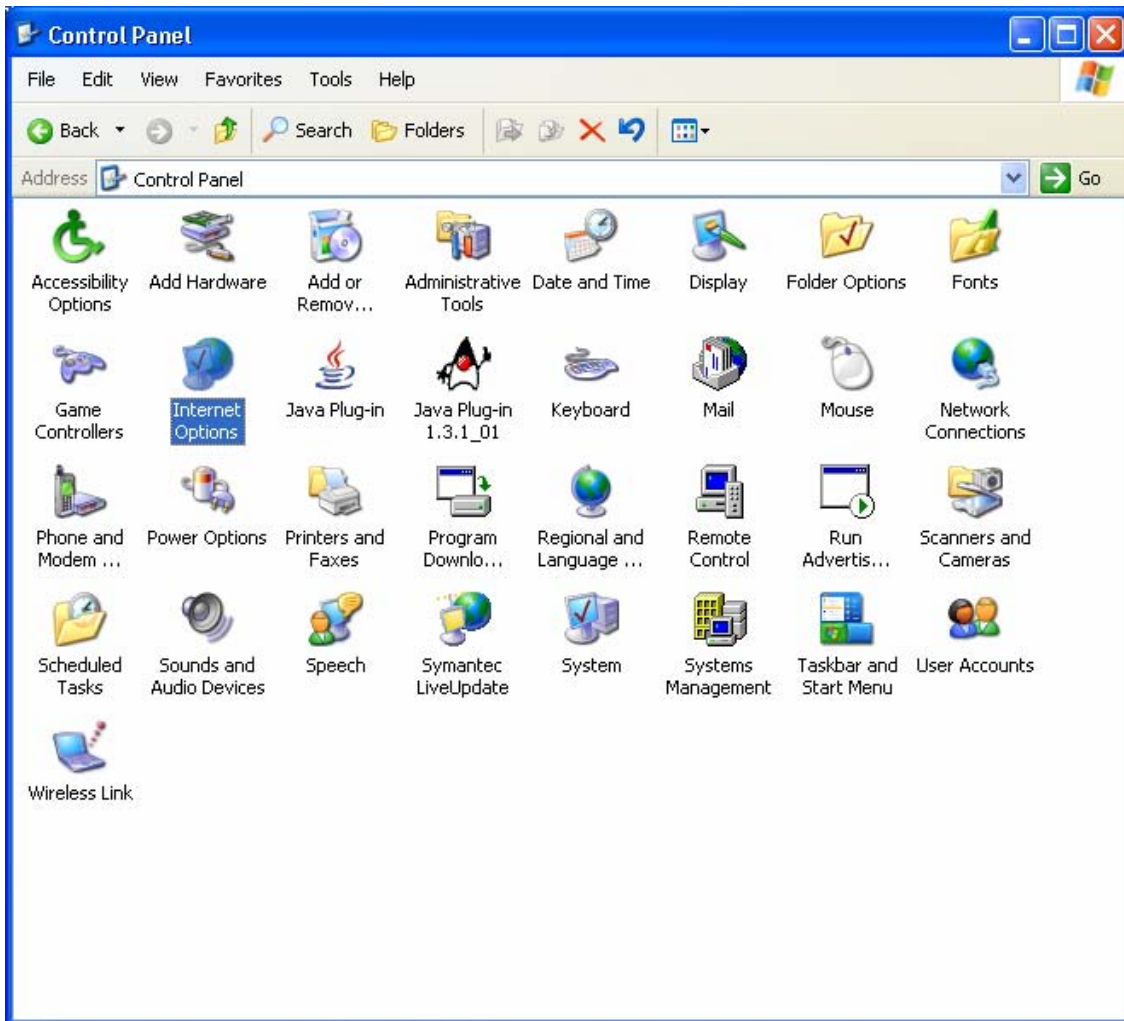

How to Turn Off Automatic Dial-up

1. Select **Start**. Then, select **Control Panel**.

2. Double-click on **Internet Options**.

NOTE: If you see text at the top of this screen that says “Pick a category,” select **Switch to Classic View** in the top-left corner.

3. Select the **Connections** tab. Select **Never dial a connection**. Select **OK**.
