

Microsoft® Internet Explorer 6 (IE6)

How to Set Internet Explorer as My Default Browser

1. Open **Internet Explorer**.
2. In the Tools menu at the top, select **Internet Options**. A new window will appear.
3. Select the **Programs** tab.
4. At the bottom of the window, check the **Internet Explorer should check to see whether it is the default browser** box. Select **Apply**.
5. If the box is already checked, remove it. Select **Apply**. Then, check the box again. Select **Apply** again.
6. Select **OK**.
7. Close **Internet Explorer**.
8. Open **Internet Explorer**. A confirmation window will appear that prompts you to select Internet Explorer as your default browser.
9. If desired, remove the check in the box next to **Always perform this check when starting Internet Explorer**. Select **Yes**.
10. Internet Explorer will open and will be your default browser.
