

Qwest iQ Networking Transition Promotion

Cost, Fear, Uncertainty and Doubt? Are these impediments inhibiting the inevitable migration to MPLS? Does the cost of two networks scare you? Not sure how you would move your mission critical sites and applications over to MPLS? Will it even work? Well rest assured, with Qwest® you are in good hands and we know how to make the transition to MPLS a smooth ride. We know that the decision to move to MPLS will be an important one for you and your company; as there are many factors in play in this decision process. Qwest knows this, and has created this promotion to assist you in the evolution of your enterprise network.

Description

Qwest iQ Networking® Transition Promotion is designed with you, the customer in mind. This promotion offers you relief in out of pocket expense of running parallel networks during the transitions phase. And to make that transition as smooth as possible, Qwest Professional Project Management service is on hand to ensure a successful migration regardless of where you are coming from.

Features

- MRC/NRC waiver for loop and Qwest iQ Networking MPLS port for qualifying customers
- Qwest Professional Project Management (QPPM)
- Termination liability waiver for qualifying accounts

Benefits

- Dual Network charges may be eliminated during the transition resulting in:
 - Faster ROI
 - Lower Total Cost of Ownership (TCO)
- QPPM service provides a complete view of your network and migration plan. The execution of the plan is communicated to you throughout the four phases. QPPM coordinates all activities related to the MPLS migration resulting in total satisfaction
 - Leave the migration to us, so you can focus on your core business

Why buy from Qwest?

- Qwest knows how to design, build and run networks—currently running over three billion minutes of VoIP long distance service per month on the Qwest IP backbone.
- Qwest manages its own network—one of the largest, most sophisticated networks in the world.
- Qwest provides a reliable, robust and fully-managed service solution, sized and configured to meet your business needs and sharpen your competitive edge.
- As with any Qwest product, the Qwest Promise of Value® is demonstrated with the QPPM service now available with Qwest iQ Networking Service.
- Qwest understands that its future is dependent on a customer's success, and we are committed to delivering a visionary communications solution that is as unique as each customer's business. That is our Spirit of Service®.

Qwest iQ Networking is a suite of WAN services with domestic and international availability depending on services selected. Recurring and non-recurring fees vary depending on services ordered. Additional equipment may be required. See your Qwest Sales Representative for details on this offer.
