

Qwest iQ Networking

INTERNATIONAL INTERNET PORT

EXPAND YOUR GLOBAL REACH

Qwest iQ Networking® International Internet Port service is a crucial element in creating a virtual enterprise by delivering a high-speed, reliable, scalable Internet access service in over 65 countries worldwide. You can maintain cost-effective communications with your branch offices and mobile employees quickly and easily by using Qwest to access the Internet.

Qwest offers a global arena for Internet Port with Internet connectivity to one of the largest and fastest networks spanning North America, Europe and Asia. The value of any Internet provider's backbone is based on the coverage of the network footprint and the quality of connectivity to other networks. The Qwest global IP network in North America and Asia, along with the pan-European network provided by global service providers, complements both footprint and connectivity.

DESCRIPTION

International Internet Port is reliable, global Internet access. International Internet Port offers exceptional service level agreements (SLAs) and some of the highest customer access speeds in the industry today.

FEATURES

- Extensive peering arrangements
- Fast reroute and core redundancy
- Comprehensive SLAs
- Best-of-breed Internet network partners
- Additional port option: e-mail services

BENEFITS

- Connectivity to 65 countries
- Competitive network recovery times
- SLA-backed network performance
- Cost effective

HOW IT WORKS

Qwest® International Internet Port provides a complete range of services for various enterprise networking requirements. The service is provided via a combination of Qwest assets and best-of-breed partner assets. To facilitate access into their network, customers have the option of Qwest Internet Ports with a variety of port speeds, ranging from 56 Kbps to 2.4 Gbps. The following port types are available in fractional or full access speeds:

- Fractional DS-1 starting at 56 Kbps
- DS-1 (1.544 Kbps)*
- DS-3 (45 Mbps)
- NxDS-1 (3–12 Mbps)
- OC-3 (155 Mbps)
- Ethernet (10 Mbps)
- Fast Ethernet (100 Mbps)
- Gigabit Ethernet (1,000 Mbps)

WHY BUY FROM QWEST?

- Qwest network operations center is your true single point of contact.
- Qwest knows how to design, build and run networks.
- Qwest manages its own network—one of the largest, most complex networks in the world.
- Qwest provides a reliable, robust and fully-managed service solution, sized and configured to meet your business needs and sharpen your competitive edge.

Qwest has significant experience in managing networks of varying sizes and complexities. With Qwest Integrated Management, you get the inherent out-tasking advantages such as lower network costs and minimized personnel issues, as well as continuously updated technology and polices.

OTHER PRODUCTS AVAILABLE FROM QWEST
