

ANYWHERE VOICE MAIL™

Your own personal voice mailbox – without a phone line. It's great for people on the move or for people who want a private message mailbox.

SET UP YOUR VOICE MAILBOX

You **MUST** complete these steps before you can listen to your messages. From any touch-tone phone:

- Call your own mailbox number and press **7** as soon as the greeting starts.
- Enter this temporary security code **1234**.
- Choose a permanent security code. It can be any number 4 to 15 digits long that doesn't begin or end with a zero.
- Choose a Greeting:
 - 1** Standard Greeting with mailbox number
 - 2** Standard Greeting with your name
 - 3** Personal Greeting
- Record a name to identify your mailbox.

HOW TO ACCESS YOUR MAILBOX

- Call your own mailbox number from any touch-tone phone.
- Enter your security code.
- You'll be at the Main Menu:
 - 1** Listen to your messages
 - 2** Send a message to another mailbox
 - 3** Personal Options

For more detailed instructions, please refer to the enclosed guide, and the helpful hints on the back of this sheet.

qwest.com

Qwest 
Spirit of Service®

Anywhere Voice Mail works almost exactly like the Qwest Voice Mail you may have at home or work, with these differences:

- You won't hear an interrupted dial tone on any phone when you have a new message, since Anywhere Voice Mail doesn't work from a phone line.
- You can only use the Message Send feature in your local area. Message Send Plus is not available.

HELPFUL HINTS

- Remember that voice prompts will guide you through the service – don't worry about making a mistake. You can always back up or erase anything you don't want.
- When you need help, just press **[0]** for more instructions, or press **[*]** to go back to the previous menu.
- Request the optional Message Notification feature to be notified when you have new messages. You can be alerted on a pager or at a convenient phone number. Call 1-800-603-6000 if you'd like to add this feature to your service.
- Or, consider the Extension Mailbox feature. This gives you one Main Mailbox plus 3 "extensions" so that different household members can receive private messages. Call 1 800-603-6000 if you'd like to add this feature to your service.
